## **MCP Migration Steps**

- 1. Begin the MCP Member site authentication process by visiting
- 2. https://mcp.microsoft.com/MCP then Click the on "Sign" In button.

Welcome to the Microsoft Certification Member Sites.

You must be a certified professional and have a Microsoft account to proceed.

Please click the Microsoft account icon <a>Sign In</a> to sign in or create a Microsoft account.

### Welcome to the Microsoft Certification Member site

* MC ID :		
* Access Code :		
	Next	

### New MCP / First-time user to this site / You just received your Welcome email

To gain access to the member site, you must associate your Microsoft Certification ID (MC ID) with your Microsoft account. This is the only time you will be asked to associate these two accounts, as long as you continue to use the same Microsoft account to access the member site.

- Don't know your MC ID or Access code? You should have received both in email(s) from mswwprog@microsoft.com. Still can't find your MC ID?
   Contact your local Regional Support Center.
- If you know your MC ID and do not know your access code click here

### Existing MCP/Previously accessed the MCP Member site

If you are an existing MCP who has previously accessed the MCP Member site, try the following suggestions to resolve this situation:

- Did you receive an email with a new MC ID, even though you already have an existing MC ID? Contact your Regional Support Center to merge these
  accounts.
- Do you have more than one Microsoft accounts or are you using a new Microsoft account? Your MC ID can only be associated with one Microsoft account. If you have multiple Microsoft accounts, try logging off and accessing the site with your other Microsoft account. To associate your new Microsoft account or help finding which Microsoft account is associated with the MCP member site, click here

If you continue to have any problems accessing the MCP Member site, please contact your Regional Support Center
